FIFRA Section 24(c) Special Local Need (SLN)

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON

metarex[®] SNAIL AND SLUG BAIT

FOR CONTROL OF SLUGS & SNAILS ON CLOVER GROWN FOR SEED, VETCH GROWN FOR SEED AND OTHER CROPS GROWN FOR SEED (AS LISTED ON THIS LABEL)

This label is valid until December 31, 2019 or until otherwise amended, withdrawn, cancelled or suspended

KEEP OUT OF REACH OF CHILDREN CAUTION

ENVIRONMENTAL HAZARDS: This pesticide is toxic to mollusks (e.g., clams, oysters, scallops, mussels). Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate. This pesticide is toxic to birds and mammals. Granules on soil surface may be hazardous to terrestrial wildlife. Cover or collect any such materials spilled during loading.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Follow all applicable directions, restrictions and precautions on this supplemental label and the main EPA registered label. This label and the Federal label for this product must be in the possession of the user at the time of pesticide application.

CROP/SITE: Clover grown for seed and vetch crops grown for seed, and the following crops grown for seed: Alliums pp. (leek, bunching and dry bulb onions), arugula, beet (garden and/or sugar), crucifers (Brassica and Raphanus spp. including broccoli, Brussels sprouts, cabbage, cauliflower, Chinese cabbage, Chinese mustard, collard, kale, kohlrabi, rutabaga, turnip, mustard, radish, mustard spinach), dill, endive, lettuce, parsley, parsnip, spinach, and Swiss chard.

APPLICATION DIRECTIONS: Apply at a rate of 5 to 20 pounds of product per acre. Use the higher rate when pest pressure is high. The maximum application rate is 20 pounds of product per acre (0.8 lb ai/A) per application. A maximum of 4 applications are permitted per growing season at a minimum retreatment interval of 14 days. Apply bait by broadcast alone or by broadcasting blended with fertilizer. Application may also be made at planting using in-furrow (seed drill) application equipment. Do not apply to dry soil. Best results are obtained if applied in the evening, after irrigation or rain. Do not irrigate for 48 hours after application.

SPECIAL CROP USE RESTRICTIONS

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture, and is regulated by the Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to, green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."
