FOR IMMEDIATE RELEASE

Liphatech® Enhances Aegis®-RP Bait Station
New features save time and money for PMPs

Milwaukee, WI (February 2013) –Recent updates to the industry’s best bait station, the Aegis®-RP by Liphatech® improve efficiency, effectiveness and convenience. Key enhancements and features include:

- SecureV™ technology** – Reduces the ability of animals to free the bait
- Elevated horizontal rods** –Keeps bait drier and fresher; more favorable for the placement of soft bait
- New wall holes** – Provides versatile security options; great for zip ties or U-bolts
- Improved drainage** – Enlarged holes keep bait drier and result in less moldy and wasted bait
- Ramped opening** – Makes runway cleaning easier and faster increasing technician productivity; limits water entering station

Manufactured with recycled material, the Aegis-RP is also eco-friendly. “Our customers provided us with input on how to improve the Aegis-RP bait station. At Liphatech, we strive to provide our customers with innovative solutions that improve their rodent control practices,” said Manny Martinez , Liphatech executive director, pest management division. The Aegis-RP is available in black or gray.
